Children Cry for PITCHER'S CASTORIA

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me." H. A. ARCHER, M.D., 111 South Oxford St., Brooklyn, N.Y.

"I use Castoria in my practice, and find it specially adapted to affections of children." ALEX. ROBERTSON, M.D., 1057 2d Ave., New York.

"From personal knowledge I can say that Castoria is a most excellent medicine for children." DR. G. C. OSGOOD, Lowell, Mass.

Castoria promotes Digestion, and overcomes Flatulence, Constipation, Sour Stomach, Diarrhea, and Feverishness. Thus the child is rendered healthy and its sleep natural. Castoria contains no Morphine or other narcotic property.

BERGEN'S Asthma Cure

NEVER FAILS.

For Asthma this remedy is an absolute specific, not only giving relief, but effecting a sure and permanent cure, if the plain and simple directions are faithfully adhered to.

We mean just what we say—that BERGEN'S ASTHMA CURE positively does cure Asthma of long standing when all other medicines fail, as thousands are willing to testify.

In Bronchitis, Coughs and Colds we guarantee this medicine in each and every case, to cure any case of cough when everything else has failed.

TO THE CONSUMPTIVE: When your family physician has given your case up; when your family have given up all hope, BERGEN'S ASTHMA CURE will carry you safely over the bridge and restore you to perfect health.

This medicine is sold on its merits, and ample testimony will be furnished on application.

WASHINGTON NEWS.

April Report on the Condition of Crops.

CONDITION OF WINTER WHEAT.

A Very Favorable Outlook Over the Whole Area—The General Average the Highest Reported Since 1882—Various Other Dispatches from the National Capital.

WASHINGTON, April 11.—The April returns to the department of agriculture make condition of wheat 96.9 and of rye 95.4. The season for sowing was favorable over the whole winter wheat area; the soil was generally easily worked, the seed bed prepared with unusual care, and sowing followed by gentle rains, sufficient to properly pack the earth and insure prompt and perfect germination. On portions of the Atlantic and gulf coasts the time of sowing was somewhat prolonged by occasional rains, but the delay was not serious, and the desired area was planted and in good growth by the advent of winter.

Suitable weather and soil conditions enabled farmers of the Ohio valley states to put in a full breadth under entirely favorable circumstances, and proper combinations of sunshine and moisture which continued until cold weather sent the plants into winter quarters with steady growth and a good color.

In portions of Kansas and Nebraska the prolonged drought of last summer extended into the period of sowing, interfering somewhat and rendering germination slow but reasonable weather during the late fall and early winter was sufficient to offset the disadvantage of a late start. The entire season was favorable in California, while in Oregon dry seed had received moisture in time to secure good though late growth.

The weather was generally mild over the whole area, and while the snow fall was comparatively light it came when most needed, protecting the plant during the coldest weather. The Ohio valley and the trans-Mississippi states were especially favored, growth in many sections continuing throughout the winter, with sufficient covering, when needed, and an entire absence of damage from freezing and heaving. Brown and bare spots are seldom met with, growth and color being remarkably uniform. The hessian fly which was feared in December in the Central is yet in abeyance, but the presence of the pest is noted in many localities, and serious injury might follow should the early season prove favorable to its development.

The general average for condition is the highest reported for April since 1882, and the individual state averages are remarkable for their uniformity. It is sixteen points higher than last year, and three above the returns for 1880. A high April condition does not insure a large yield, but it indicates a strength and vitality which would enable the plant to withstand more than the ordinary vicissitudes of the season. The nearest approach to present condition during recent years was in 1884, when the largest crop ever grown was harvested, but similar high condition in 1886 was followed by a crop of little more than average proportions.

The averages of condition in the principal states are: New York, 92; Pennsylvania, 97; Tennessee, 98; Kentucky, 97; Ohio, 98; Michigan, 93; Indiana, 99; Illinois, 97; Missouri, 96; Kansas, 99; California, 93 and Oregon, 97.

The returns make the percentages of losses among farm animals during the past year, of horses 1.7, cattle 3, sheep 4 and swine 8.4. Horses receive better care than any other class of stock, and annual losses very little. The percentage of loss of cattle is slightly higher than was reported in 1888 and 1889, the scarcity of feed swelling the figures in portions of Kansas and Nebraska. The losses of sheep have been smaller than usual on account of better care and attention, while less disease than usual is reported among swine, though there is heavy loss in the regions of last year's crop failures.

Direct Tax for Southern States. WASHINGTON, April 11.—Secretary Foster has directed that all proper facilities be accorded the governors of the southern states to examine the treasury books for information as to who paid the direct tax, that the tax may now be refunded to the proper individual, his heir or assignee. The following letter was yesterday sent to the governors of Virginia, North Carolina and West Virginia, and a similar letter will be forwarded to the governor of each state when the direct tax was collected by the government agent from individuals. The latter reads:

"In the matter of the refund of the public tax to certain states provided for by the act of congress approved March 2, 1891, it is the wish of the treasury department to furnish to the duly authorized representative of the governor of each state access to the records of the department under circumstances which will occasion as little inconvenience as possible. Inasmuch as these original records cannot be removed from the custody of the government, and as the available space in the treasury buildings is limited, you are requested to name at least approximately the date when you will wish your representative to make their search of the records and the number of persons thus employed, for whom work room will need to be provided."

"In this connection the suggestion is made that the matter would be greatly facilitated if you would send an agent to Washington to look over the records, which will need to be examined, and form some estimate of the amount of work to be done. All facilities within the control of the department will be furnished for the purpose indicated."

The President and Prisoners. WASHINGTON, April 11.—The pres-

dent yesterday declined to grant a pardon to E. D. Byrd, of Texas, serving a sentence for violations of the postal laws and fined \$2,000. He commuted the sentence of John A. Davidson, of Illinois, serving out a sentence of four years for violation of the postal law, to two years' actual imprisonment.

Canadians Gulling Americans.

WASHINGTON, April 11.—Canadians are engaged in the business of gulling Americans in the matter of pure bred horses, if the collector at Port Huron, Mich., is correct in his surmises. He writes to the treasury department that he has spent a good deal of time in the investigation of Canadian registries of purported thoroughbred animals and has always found them unreliable. They do not, he says, guarantee that purity of breed, that similar books in Europe and this country do, and more than this, he says they are evidently compiled for the purpose of making a market among unsuspecting Americans for inferior animals."

Huston Summoned to Washington.

WASHINGTON, April 11.—United States Treasurer Huston will arrive in Washington on this afternoon. He returns here at this time at the request of the president, who desires to confer with him about the United States treasurership before he departs for California. Mr. E. H. Nebe, aka of Covington, Fountain county, Ind., has also been summoned here and it is stated on what is thought to be conclusive authority that Mr. Nebe will succeed Mr. Huston as treasurer of the United States. Mr. Nebe is a retired banker, an intimate personal friend of President Harrison and one of the most prominent Germans in Indiana.

Venezuela Will Come.

WASHINGTON, April 11.—Information received here is to the effect that the Venezuelan government has accepted the invitation to participate in the world's fair at Chicago, and President Palacio has assured Special Commissioner Lieut. Wells that the republic will send a full text of its products and industries.

FOR COAST DEFENSE.

Proposals for Forgings for Steel Guns, Mortars and Projectiles.

WASHINGTON, April 11.—The ordnance officers at the war department have been earnestly at work for weeks past preparing to give effect to some of the more important provisions of the fortification appropriation act, which will go into operation after June 30. To avoid loss of time most of the advertisements for proposals to supply material have been prepared, and will be issued in advance of the beginning of the new fiscal year. Those ready for issue are as follows:

For twenty-five sets of forgings for steel field guns of three and two-tenth-inch calibre; for sixteen sets of forgings for steel field mortars of three and six-tenth-inch calibre and for sixteen steel carriages for the same; for steel forgings for large eight, ten and twelve inch rifled coast defense guns; for eight, ten and twelve-inch armor piercing projectiles; for excavations and iron work at the new south wing of the Watervliet gun factory.

For the large coast defense guns above referred to, congress appropriated \$300,000 for the procurement of the necessary forgings, and the material will be assembled at the Watervliet factory and the finished guns turned out. The 3.6-inch mortars mark a new departure in military field operations. They are intended to replace the small howitzers which are used for shelling an enemy behind earthworks or like defenses and out of the direct fire of field guns. Their range is nearly three times as great as the Cohorn smooth-bore mortars, the projectile is more than twice as heavy and great accuracy of fire is obtainable. The weight of the piece is about 5.5 pounds, so that it can be easily transported in a wagon or moved about in the trenches.

The armor piercing projectiles are to be manufactured by a domestic concern, but upon specifications that will secure the use of some one of the modern European patented processes. For their procurement an appropriation of \$100,000 will be available. The work of construction at Watervliet, for which advertisements have as far as possible been prepared, will be estimated, cost about \$75,000, leaving \$73,742 of the total appropriation for use in completing the new south wing.

FORT WAYNE, Ind., April 11.—Negotiations are pending between business men and the Winsted Hosiery company, of Winsted, Conn., which it is believed, will lead to the above firm locating at this point. The company employs several hundred skilled workmen, and their goods are favorably known the world over.

John C. New's Brother Dead.

INDIANAPOLIS, April 11.—Dr. George W. New, only brother of Consul General John C. New, died at his residence in this city yesterday at the age of 70 years. He served through the war as an army surgeon and since that time has been engaged in the practice of medicine in this city.

Mangled Body Found.

GREENCASTLE, Ind., April 11.—The badly mangled remains of an unknown man were found lying on the Monon track at Roachdale Crossing yesterday morning, and it is supposed he was killed by the cars. The coroner will investigate.

Car Shops Burned.

ALLEGTON, Pa., April 11.—A fire last night in the car shops owned by McKee, Fuller & Company, at Fullerton, destroyed the forge department. Loss estimated at \$20,000 to \$25,000; insurance about one-third.

Accident in an Iron Mine.

BERLIN, April 11.—A terrible accident is reported from an iron mine at Saar-Louis, Koenigshof Prussia. Three men have been killed and several injured by an unexpected fall of rocks in the mine.

LABOR TROUBLES.

State Troops Recalled from the Coke Works.

NON-STRIKERS FRIGHTENED.

Several Men Who Had Been at Work

Quit and Others Likely to Follow—An Effort Will Be Made to Start All the Coke Works Next Monday—Other Labor News.

MOUNT PLEASANT, Pa., April 11.—The Eighteenth regiment, National Guards of Pennsylvania, will return to their home in Pittsburg at noon to-day. The Tenth regiment will remain and guard the coke works in the region. The report of the withdrawal of the troops has frightened the men now working and it is believed that by this evening half of the number now at work will have forsaken their places. There were seventy men working at Morewood yesterday, three less than the previous day.

General Manager Brennan, of the McClure company, stated yesterday evening that a general attempt to start all of the works in this vicinity would be made Monday. If the attempt to start the works proves a failure, it is very likely that wholesale evictions will take place and all the occupants of the company houses will be turned out. It is expected that the present occupants of the houses will offer resistance but the presence of the militia, it is hoped, will prevent any outbreaks.

The sixty-seven delegates to the strikers' special convention yesterday reported that the disposition of the men whom they represented was to hold out until Christmas, if necessary, in order to gain their end. The convention was not altogether harmonious, some of the delegates denouncing the management of the strike, declaring the management of a failure and fought to endorse the scale committee.

District Master Workman Wise reported that he had promises of plenty of financial aid. President Rae stated that his idea was to continue the fight until the strike on the eighth-hour movement commences on May 1, and was confident of success if the men held out four weeks longer. He admitted that many of the demands in the scale were wrong and ought to be dropped.

Twenty delegates said they must have help immediately in order to keep the men out.

Finally a resolution passed stating that the men, through their representatives, were willing to go into conference with the operators and another that the men will stand firm until their representatives shall effect a satisfactory settlement.

Deputy Sheriffs Arrested.

PITTSBURG, April 11.—A Scottsdale special says: All the deputy sheriffs implicated in the Morewood shooting have been arrested. The prisoners were kept under guard in the Eighteenth regiment quarters Thursday night and were taken to Greensburg yesterday morning. An angry crowd of several hundred struck congregated at the depot yesterday morning to see the prisoners take their departure, and the deputies felt more comfortable when the train moved out of the depot.

For the large coast defense guns above referred to, congress appropriated \$300,000 for the procurement of the necessary forgings, and the material will be assembled at the Watervliet factory and the finished guns turned out. The 3.6-inch mortars mark a new departure in military field operations. They are intended to replace the small howitzers which are used for shelling an enemy behind earthworks or like defenses and out of the direct fire of field guns. Their range is nearly three times as great as the Cohorn smooth-bore mortars, the projectile is more than twice as heavy and great accuracy of fire is obtainable. The weight of the piece is about 5.5 pounds, so that it can be easily transported in a wagon or moved about in the trenches.

The armor piercing projectiles are to be manufactured by a domestic concern, but upon specifications that will secure the use of some one of the modern European patented processes. For their procurement an appropriation of \$100,000 will be available. The work of construction at Watervliet, for which advertisements have as far as possible been prepared, will be estimated, cost about \$75,000, leaving \$73,742 of the total appropriation for use in completing the new south wing.

FORT WAYNE, Ind., April 11.—Negotiations are pending between business men and the Winsted Hosiery company, of Winsted, Conn., which it is believed, will lead to the above firm locating at this point. The company employs several hundred skilled workmen, and their goods are favorably known the world over.

Operators said last night: "There is enough coal in stock in the eastern, middle and northwestern states to supply all demands until July 1. The market has been slack right along, and the stock of coal is unusually heavy. The operators of Illinois, Indiana, Kentucky, Kansas and West Virginia will join the Pennsylvania and Ohio operators in fighting the strike. It will be fought jointly, not individually."

Preparing for the Strike.

PITTSBURG, April 11.—The western Pennsylvania and Ohio coal operators are making preparations for the strike of miners on May 1. The Pennsylvania operators have appointed a committee of five, with Francis L. Robbins, president of the Pittsburgh, Fairport and Northwestern Dock company, as chairman. The Ohio operators have also appointed a committee of five, with Col. J. L. Morton as chairman.

Operators said last night: "There is enough coal in stock in the eastern, middle and northwestern states to supply all demands until July 1. The market has been slack right along, and the stock of coal is unusually heavy. The operators of Illinois, Indiana, Kentucky, Kansas and West Virginia will join the Pennsylvania and Ohio operators in fighting the strike. It will be fought jointly, not individually."

Raid of Strikers.

GREENSBURG, Pa., April 11.—At Whitney's works, near Latrobe, at 4 o'clock yesterday afternoon, 200 strikers accompanied by their wives and children made a raid on the forty-five men at work. The women and children led the raid. The clerks and office employees came out of the offices with Winchesters in their hands drove the raiders away. No one was hurt. An armed force of deputies was placed at the works and work proceeded with, the workingmen under guard.

Carpenters to Strike.

PITTSBURG, April 11.—It has been definitely determined that on May 1 the 5,000 carpenters in the Pittsburgh district of the Brotherhood of Carpenters and Joiners of North America, will cease work until the builders concede the eight-hour demand. Several conferences have been held with the builders, but all efforts to reach an agreeable understanding were in vain.

Striking for Union Principles.

BELLAIRE, O., April

EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.
ROSSER & McCARTHY,
Proprietors.

SATURDAY, APRIL 11, 1891.

The court at Richmond having decided that school teachers have a perfect right to whip pupils for playing "hookey," boys will be firmly opposed to the observance of Arbor Day hereafter.

W. P. VAUGHN, of Richmond, Ky., is fifty years old, six feet tall and weighs only about ninety pounds. Mr. Vaughn is not the man who edits the "thin column" of the Register of that city. He is the articulated, animated skeleton who travels with John Robinson's shows.

The organization of a company to establish a shoe factory at Georgetown, O., has stimulated the enterprising citizens of that place to further industrial improvements, and a move is now being made to incorporate a stock company with a capital of \$20,000 to enlarge and operate the woolen mill at that place. We are glad to note this activity at Georgetown. Maysville people could learn a lesson from the Georgetown folks.

DITTOE, of the State Journal, thinks "these be troublous times" for the Republicans, and he's right. He says the G. O. P. politicians and newspapers in large cities are telling the people that the McKinley tariff of 5 cents a dozen on eggs has not raised the price of that commodity, while the country people are told it has raised the price. With all scheming the Republicans can't please enough of both sides to catch enough votes to save the party from going under.

If half the reports are true, the recent railroad election in Harrison was one of the most corrupt that ever occurred. The Democrat says: "Boodle was 'out of sight,' it was claimed that from \$2 to \$75 was paid for votes. The results show the total number of votes cast to be 4,017. At the last August election the total number of votes cast in the county was 2,933. It is claimed that from 400 to 500 illegal votes were cast in the railroad election. Had there not been any money used the proposition would have carried."

Cost of the Constitutional Convention.

The Constitutional convention finished its work last night and adjourned until next September. It has cost the State, approximately, \$130,753, not including printing, mileage, stationery, coal and gas. The expense is for the following items: Per diems, \$105,930; President's salary, \$2,140; three clerks, \$6,420; Sergeant-at-Arms and Doorkeeper, \$3,544; janitors, \$3,003; pages, \$5,194; librarian, \$500; preachers, \$600; copying \$800; rents, \$500; cloakroom-keeper, \$963, and incidentals, \$160. The cost of printing and mileage will probably run the total up to \$200,000.

Eglantine.

The chestnut filly Eglantine by Hambrino, 2:21, dam Ella G. by George Wilkes, next five dams thoroughbreds. Eglantine is a full sister to Delmarch, 2:18 $\frac{1}{2}$, Wilkes Brino, 2:23, and is considered by her breeder equally as fast as either of the above.

This fine mare was purchased Thursday by Mr. James W. Fitzgerald of M. M. L. Hare, of Indianapolis, Ind., for a very prominent Mason County gentleman—name not learned. The price is not given out, but it was way up. She will be trained this season at the Limestone Stock Farm, and will be bred to Alcandre.

What is the Purpose of Kindergarten Education?

It is to afford children all proper, rational enjoyment; to supply them with toys and games, to sing with them, to play with them—the toys, games, songs and plays being all covert vehicles of instruction.

It is to promote children's healthy activity; later to awaken their imagination gradually to the influence of the beautiful, the true, and the good; to stimulate their imitative and inventive capacity; to aid the development of their reason, and to give those powers free exercise and a right direction.

It is to prevent any undue strain on children's powers, mental or physical,—to teach by means of object lessons conveyed in plays rather than by books.

It is to form a well-balanced mind, to discern and bring out gently, but surely, any latent aptitude for intellectual acquirements, artistic gifts or manual skill.

It is to partially relieve parents of the charge of their very young children for part of the day, and during that time to train them properly.

It is finally to prepare children for school, to fit them for learning more readily, to sow the first seeds that are to produce adults of sound mind in a sound body,—good citizens and true christians.

Miss Nellie Marsh, of Paris, is in town with a view of opening a school on the Kindergarten plan.

A NOTABLE AMUSEMENT EVENT.

Solomon, His Temple, and the Queen of Sheba.

John Robinson's ever popular shows come to us this year with such important accessions and augmentations as to overshadow all cotemporary amusement ventures. They have not only materially strengthened their ring and hippodrome performances and added largely to their already vast menagerie, but are producing an astounding new feature, which can not but commend itself to all classes of patrons. We allude to the grand biblical spectacle of "Solomon, his Temple, and the Queen of Sheba." Faithful in scenic delineations, realistic in depiction of incidents and events, impressively grand in pageantic effects, magnificent in costumes and appointments, entrancing in musical features, and exciting in games and chariot races, this unprecedentedly sublime spectacle will command itself to every visitor.

As a contrast to this notably artistic production, and for the especial edification and delight of the younger members of the audience, the mirth-provoking and ever acceptable pantomime of "Humpty Dumpty, his Fortunes, Misfortunes and Mishaps," will find place in the programme of the Robinson show, and will be presented by an unexceptionable company of especially engaged skilled and comic pantomimists, and replete with new, original and highly diverting tricks, transformations and surprises.

The show will exhibit here May 6th.

The Railways.

The Louisville Commercial says either John H. Milliken or Captain Sam Morse will be Captain S. S. Parker's successor as Division Passenger agent of the L. and N. at Cincinnati.

The Gould party, which passed over the C. and O. road Sunday last, have advised President Ingalls that they were much pleased with the physical condition of the property, and really surprised at its excellence.

Mr. Wood, Third Vice President of the L. and N., Mr. Lewis Hood, Superintendent, and Mr. Brent Arnold, General Freight Agent, of same road, came in yesterday morning on a special and spent a few hours here on business.

It is reported the L. and N. authorities will put an extra train on the Maysville branch, which will leave Maysville every morning at 2 o'clock and run through to Louisville without change, and return late in the evening, giving passengers the benefit of six or seven hours in the city.—Bourbon News.

River News.

The City of Carrollton may be placed in the Portsmouth trade temporarily when the Sherley is sent to the "bone-yard."

The Sherley for Portsmouth at 9 p. m. and the Bonanza for Pomeroy and Hudson for Pittsburg at 12 are due up to-night. The Bachelor will pass down this evening and is the Sunday night packet for Pittsburg. The Boston and Scotia will pass down Sunday.

A special from Carrollton says: "An exciting warfare has been inaugurated between the United States Mail Line Company and the Browns, who run the little steamer Hattie Brown. It was precipitated by the company putting the little steamer Lee H. Brooks in opposition to the Brown between Warsaw, Ky., and Madison, Ind. The Brooks has been carrying passengers for nothing, and the feeling is pretty high. The Brown is well grounded in public favor, and the contest will likely be protracted."

Stock and Crop.

Jas. McLeod, of Bourbon County, has sold twenty fat cattle, July delivery, at \$4.75 per cwt.; fat hogs, May delivery, at \$4 per cwt., and his lambs for July 1st delivery, at \$4 per head.

The Owen News reports the following sales of tobacco in that county the past week, 2,000 pounds at 12 $\frac{1}{2}$ and 6 cents; 10,000 pounds at 12 cents for all but 500 pounds and 6 cents for that; 3,000 pounds at 10, 8 and 2 cents; 5,000 at 10 cents and 8,000 at 10 cents for all but the spodge, and 5 cents for that.

Concert.

Miss Lelia Wheeler, one of Maysville's sweetest singers, will give a concert at the opera house next Wednesday night. She will be assisted by Misses Verity and Marsh, vocalists, and by Miss Rodgers, a fine elocutionist. Misses Wheeler, Verity and Marsh are all pupils of the Conservatory of Music, and the Cincinnati papers compliment their singing very highly.

The entertainment promises to be a thoroughly enjoyable one. Admission, 25, 35 50 cents.

Real Estate Transfers.

Hulda Knott and Millie Knott to Mary A. Proctor, lots 81 and 82 and the west half of No. 83 in Woodville; consideration, \$390.

Sarah Miller to Eliza Ann Mearns, house and lot on north side of Second street, Fifth ward; consideration, \$1,500.

For Life.

Archie Downard was sentenced to the "pen" for life this morning for murdering Marshal Vogelsong of Falmouth.

NATURAL HISTORY.

SECOND PAPER.

Continuation of "The Hen."

Woman, spare that hen,
Touch not a single feather,
You'd cook her flesh, eat it up,
Then sell her skin for leather.

Our admiration for the hen constrains us to a continuation of her. She is a propulsive subject; she grows upon us. In fact from the moment of her egg-citing debut into chirping chickenhood she grows upon us.

She spreads. All this gush about the "spread eagle" is twaddle. The old bald-headed kidnapper is not a circumstance to her. When it comes to straight, old-fashioned, all-round spreading, she can come just about as near doing as much of it as a horse blanket as any of 'em. Don't you remember the boy who put a hundred eggs under the hen? When his mother asked him why he did it, he replied that he wanted to see her "spread herself." She spreads "from the earth all round to the sea;" she is from ocean to ocean. She roosts on the international clothes line that the Canada women and ours hang out their washings on. She takes her ducklets surf bathing in the gulf of Mexico.

She abounds in traits and qualities that appeal to the admiration of all lovers of the beautiful and the good. In repose she is gentle of manner and amiable of disposition in a degree that should be the envy of her human sisters, in whom these graces are what perfume is to the flower, and which makes them, indeed, "rarest, fairest flowers." Under just provocation, however, she is as brave as a Spartan. In fact, to see her with wings akimbo, feathers awry, with head down, and under full, mad charge, she is hedge-hog, porcupine, bombshell and buzz saw in one volume. She is patriotic. She will die in defense of her fireside, against man, beast or hawk, who is first cousin to the "proud bird of America."

But her "onery" husband is a white-livered coward, unless he is a thoroughbred and is challenged by some other blue-blood, and is armed with forty-four-calibre Smith & Wesson gaffles, and is arranged, with backers, in a pit of honor.

The hen is a moral bird, as she evidences when the preacher comes. When she hears him click the latch of the front gate, she clucks the call for the family to assemble. A moment is spent in silence and then they wing up a tree where they remain in reverential silence until he is seen going to the next neighbor's.

We nominate her to be the National bird on our great American trade mark, in place of the eagle, who is a barren ideal. The hen is emblematic of all sentiment that is true and noble. She stands for morality, industry, patriotism, courage and honor.

Put her on the National shield, standing above a nest, which shall have represented in it as many eggs as there are States in the Union, with the name of a State on each egg, and standing upon the edge of the nest thirteen little chicks representative of the original colonies.

We hereby call a convention of all the people of the Union to be held at the foot of Bunker Hill on the 4th day of July next to confirm this nomination. Uncle Sam will preside, and the formal presentation of her name will be made by Miss Hail Columbia. The nomination will then be made by acclamation and confirmed by the deposit of one egg in Uncle Sam's hat by Miss Hail. Miss Dorking, who will be there as lay delegate, will cackle acknowledgement on behalf of all hemdon in clear hen tongue. It will then only remain for the public functionaries to make the official change, when a new era of prosperity will begin.

Can any one deny that there is a happy hereafter for hens where—

On fame's eternal roosting ground,
Folded in silence every wing—
No hungry hawks will hover around.
Nor angry cooks their heads will wring?

The Con. Con. will be memorialized for the enactment of a provision making it a high misdemeanor to sell a hen-skin to a tanner. This is out of respect to the hen, and to prevent the manufacture and sale of hen-skin footwear, as well as imposition upon the people.

In the highest grade of kip, calf, kangaroo, kid, cordovan, goat and all true leathers, we are showing the finest lines, varieties and styles ever seen in this market, with qualities guaranteed, at a saving of 25 per cent. Come and see our unequalled spring showing. H. C. Barker's Spot Cash Shoe Store.

To the Ladies.

Miss Niland announces her annual spring and summer opening for Tuesday, April 14th. She wishes to inform her patrons and the public generally that her stock, which has always been of a superior style, far surpasses anything she has ever yet displayed.

For Life.

Archie Downard was sentenced to the "pen" for life this morning for murdering Marshal Vogelsong of Falmouth.

SERVICES in First Presbyterian Church to-morrow at the usual hours, conducted by the pastor, Rev. John S. Hays, D. D. Young people's prayer meeting at 7 o'clock p. m. All cordially invited to attend each service.

THE fire insurance companies are not growing rich very fast off of their business at Harrodsburg. During the past twelve months they received \$20,000 in premiums at that place while they paid losses to the amount of \$81,127.

THE Limestone Stock Farm's stallions, Alcandre, McAlister, Tito and Dr. Owens will be on exhibition next Monday (court day) at Wells & Biggers's stable, and will not be shown on the street. All admirers of the trotters are invited to see them.

A COMPANY was organized at Harrodsburg Thursday to take charge of "Daughters' College" at that place, an institution in which many young ladies of this country received part of their education. It will still be controlled by President Williams.

HERE'S an item that will prove of interest to turfmen. A man in Decorah, Ia., has invented a speed indicator, which is to be fastened to the driver's wrist in such a way that the dial may be seen at all times. A small cord connects the novel device with the sulky wheel. A driver can tell by glancing at the machine how fast he is going. The indicator also registers the greatest flight of speed at any part of the mile. If some other genius will now invent an apparatus to indicate when a horse is pulled, we will necessarily be good.

Astonished at such a low price, he bought the shoes, supposing he had obtained a great bargain. Soon afterwards discovering that the shoes began to spread and wear badly, he exclaimed, "I deserve all this for my folly in thinking that everything 'nice looking' must necessarily be good."

Ever had that experience? Good shoes never wear poorly; poor shoes never wear good.

The difference between good and bad is just the same as the source and mouth of a river—though closely allied, they can never become one and the same, as they denote the extremes.

Good shoes may be had at reasonable prices by patronizing MINER, who has been

CALL and see the great variety of odd spoons, after coffees, ice creams, teas, &c. &c., in beautiful and artistic designs, and made of the finest sterling silver, just received at Ballenger's.

A HANDSOME IMPROVEMENT.

What Has Been Done at the Public Library—The Reception Last Night.

If Maysville people wish to see the handsomest improvement made in this city of late years—considering the amount of money expended—let them visit the Public Library.

When the building was completed some years ago and thrown open to the public, no arrangement was made to care for it and keep it clean. Most any one can imagine what naturally followed. The dust accumulated and the rooms became more dingy and gloomy looking year after year.

Such was the condition of affairs when some of Maysville's public-spirited women, among them Mrs. Geo. T. Hunter, Miss Anna Morgan, Mrs. Walter Blatterman, Mrs. John M. Hunt, Mrs. Stanley Lee and Mrs. C. M. Phister, interested themselves. They planned and carried out the merchants' carnival in order to secure an improvement fund. The entertainment was a grand success, financially and otherwise, and with the money thus obtained the ladies began their work.

The room was given a general overhauling. The walls and ceiling were handsomely frescoed, the lower part of the walls being given a plastic trimming, the upper floor and the stair-way were covered with a neat carpet, six or eight large new book cases and several office tables were put in, the paintings were brightened up and rehung, and arrangements perfected for thoroughly lighting the room with gas.

To fully appreciate the wonderful change, one has to visit the Library. And all this was done with about \$450. It is now a credit to the city, and it is to be hoped this commencement will lead to improvements and additions on a much larger scale, and that the good work will continue until Maysville has the finest public library in the State. Its endowment fund is the largest possessed by any public library in the State, a fact that few people are aware of.

The entrance to the library is to be improved at once.

The reception last night from 8 to 10 o'clock was a very enjoyable event indeed. The room was brilliantly lighted, and the many who attended expressed surprise at the very great change. Words of praise were heard on every hand. The Maysville Orchestra kindly volunteered their services and rendered some of their sweetest music.

A painting of "The Angelus" by Mrs. Jennie Clark, and loaned by her for the occasion, was greatly admired.

The ladies are very grateful to all who have contributed in any way to the work of improvement and for any favors rendered at the reception last night.

Here and There.

Mrs. Charles Nute, of Flemingsburg, returned home to-day.

Miss Willett, of Lexington, is visiting Mrs. Case, of Bridge street.

Miss Nellie Marsh, of Paris, is the guest of Mr. and Mrs. Geo. T. Hunter.

MINER'S MAXIMS!

They who act without sufficient thought, will often fall into evil ways.

The truth of this maxim is seen in the following:

A certain gentleman of Maysville, who was in the habit of buying Miner's Shoes, noticed a "nice looking" shoe in a certain store window—in another city, apparently marked very low.

Astonished at such a low price, he bought the shoes, supposing he had obtained a great bargain. Soon afterwards discovering that the shoes began to spread and wear badly, he exclaimed, "I deserve all this for my folly in thinking that everything 'nice looking' must necessarily be good."

Ever had that experience? Good shoes never wear poorly; poor shoes never wear good.

The difference between good and bad is just the same as the source and mouth of a river—though closely allied, they can never become one and the same, as they denote the extremes.

Good shoes may be had at reasonable prices by patronizing MINER, who has been

Receipts of hogs, 1,985; cattle, 265; sheep, 47.
Shipment of hogs, 159; cattle, 98; sheep, 9.

Cincinnati Tobacco Market.

(Thursday.)

The offerings at auction were 772 hds., classed as follows: 138 hds. Mason County, Ky., district; 153 hds. Pendleton County, Ky., district; 129 hds. Owen County, Ky., district; 129 hds. Blue Grass Ky., district; 223 hds. hds. Brown County, Ohio, district.

The breaks continue large and the market did not show any material change, a firm, active market being shown. Good and fine leaf and colony trash and lugs (old) are in active demand, bringing full quotations. Medium leaf is in good demand. Common grades are unchanged, holding in good request and selling well. There is a continued firm market for medium to good (new), and it brings good figures, while prices for common trash, lugs and underscripted leaf are very low.

On Friday, hds. 138 sold from \$1 to \$3.00, 189 from \$1 to \$3.50, 139 hds. sold from \$0 to \$7.80, 80 from \$8 to \$9.95, 133 from \$10 to \$14.75, 59 from \$15 to \$19.75, 9 from \$20 to \$24.25, and 1 at \$25.25.

Chamberlain's Cough Remedy the Best of All.

LATROBE, Pa., Jan. 27, 1891.

Messrs. Chamberlain & Co., Des Moines, Iowa, Gentlemen: You have helped me considerably with a good medicine and splendid advertising. Chamberlain's Cough Remedy is the most popular cough medicine I handle.

Mrs. Griffith, wife of Supt. of the Latrobe steel works, always has your Cough Remedy in her house. I persuaded her to try it months ago; yesterday sold her the fourth bottle.

Samuel Osborne, a prominent contractor, tells me: "John MacMillan, you can't say too much for Chamberlain's Cough Remedy. Say all you can and I will put my name to it."

"Mr. MacMillan you remember asking me to try, just to try, a bottle of Chamberlain's Cough Remedy for that terrible cough which I carried for months. Well! That cough is gone. Oh! My name is Miss Weis."

Mr. Jos. Barnett, our bank cashier, had a tickling in his throat for four or five nights: "Mac," one dose only of Chamberlain's Cough Remedy and I slept until morning.

Gentlemen, these are samples of hundreds that I know.

Think of the vast number of cough rups sold. Chamberlain's Cough Remedy excels them all. Sincerely yours,

JNO. C. MACMILLAN,
Proprietor of the Corner Drug Store.
For sale by Power & Reynolds, druggists.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria,
When she had Children, she gave them Castoria.
